Advisory Board on Autism and Related Disorders

Dear Friend,

The 9th Annual ABOARD Spring Conference will be held on Saturday, March 19, 2011 at the Holiday Inn - Pittsburgh Airport.

In 2009 we held our first, "Integrative Biomedical Treatment Options for Children and Adults with Autism Spectrum Disorders," and had over 300 parents and professionals attend.

This year's conference, "Integrative Biomedical Treatment Options for Children and Adults with Autism Spectrum Disorders," will feature the presentations *Gut Biology, Pathology, and Treatment Strategies in Patients with Autism Spectrum Disorders* and *Autism and the Autonomic Nervous System* by Dr. Anju Usman. In addition, *Raising a Healthy Child in a Toxic World* will be presented by Dr. Suruchi Chandra.

ABOARD's spring conferences have become Western Pennsylvania's must attend events and usually attract over 300 participants to:

- Hear experts from across the country speak on the latest strategies to treat autism
- Network with other parents of children with autism
- Meet other educators or professionals who work with children with autism
- Acquire the required continuing education credits from AOTA, ASHA, PA Act 48, and Social Work

Please see attached documents for sponsorship, exhibitor and advertising opportunities, organizational membership and the conference brochure.

You may also find out more detailed information about the conference, including the opportunity to register at www.aboard.org. Click on What's Happening.

Help ABOARD educate professionals and parents in the field of autism by promoting your organization and business at ABOARD's 9th Annual Spring Conference on March 19, 2011.

Please feel free to contact ABOARD with any questions you may have at support@aboard.org or 412.781.4116.

Sincerely,
Chrisoula Randas Perdziola
Conference Coordinator
Biomedical Parent Support Group Facilitator
