

**ABOARD has been provided
with a free excursion from**

RiverQuest

Join us for an Adventure Voyage!

Sail into adventure looking for signs of life in the watery world that runs through our city. Learn about alternative sources of energy and what makes our vessel, *Explorer*, green. Search for microscopic plankton in a river water sample and hunt for unbelievable creatures from our rivers!

Voyage time: 1.5 hours

www.riverquest.org

Saturday, August 6th 4:30—6:00 p.m.

Must be 12 years or older!

We are looking for students that have IEP goals related to river or environmental science or have a general interest in science. Must be able to follow safety directions and typically be able to safely participate in community outings.

**The activity is limited to 60 attendees.
Person with ASD may attend alone if able or
with one adult/TSS/care giver.**

**Please go to www.aboard.org to register!
Registration will be first come first serve!**

Participants should dress for the weather and wear clothing you won't mind getting wet or dirty. The boat is mostly enclosed and climate controlled but you may wish to bring a rain jacket.

There are three restrooms available onboard. Life jackets available, but participants are not required to wear them while underway (Unless they choose to do so.)

BOAT is docked at Science Center in Pittsburgh's Northside.

Parking is available for \$5.00 at the Science Center

For additional questions call Rebecca Williams-Thomas at 412-499-0165 or email rwthomas@aboard.org. Registration will not be available via phone or email.

You must register online.
